Website: <http://www.biggreenq.com>

About Us:

Big Green Q (BGQ) is a brand new, environmentally friendly, contemporary BBQ food truck located in Omaha, Nebraska. BGQ is the first food truck in the Midwest to run entirely on CNG (compressed Natural Gas). As an alternative energy vehicle, the BGQ truck is supported by the Nebraska Environmental Trust and by Metropolitan Utilities District (MUD) in its conversion to CNG.

Big Green Q is focused on locally sourced produce, breads and antibiotic/hormone free meats whenever available. Big Green Q smokes and grills chicken, pork and Wagyu beef over Missouri lump charcoal. The smoking wood changes and is sourced from Missouri as well. All sauces are carefully crafted and initially include a tangy red BBQ, as well as a yellow mustard BBQ sauce. Big Green Q also specializes in scratch made seasoned Tater tots. As the seasons change so will the menu! Follow on Facebook or Twitter at Big Green Q or go to www.Biggreenq.com for more information.
